

## Position Properties in CSS .

### CSS Position Properties Demonstration

Static

Default positioning. Elements are placed in normal document flow.

Relative

Moved relative to its normal position. Still occupies original space.

Absolute

Positioned relative to the nearest positioned ancestor (container).

Fixed

Stays fixed relative to the viewport, even when scrolling

Sticky

Scroll inside this container to see the sticky box. It behaves like relative until the top of the container reaches the viewport, then it "sticks".

  Lorem ipsum dolor sit amet, consectetur adipiscing elit. Integer ut dui eget eros posuere bibendum.

  Present ac turpis at risus posuere hendrerit. Cras sit amet felis vitae urna euismod efficitur.

  Sed vehicula lorem a nunc hendrerit, nec egestas leo gravida. Integer faucibus arcu vel mauris malesuada.

  Proin feugiat orci non dui ultrices, sit amet pellentesque erat bibendum. Integer luctus tincidunt ante.

  Suspensisse sit amet ex nec justo malesuada aliquam. Nulla sed turpis ipsum. Etiam volutpat tristique.

  Donec vel lorem at justo bibendum consequat. Vivamus at neque at eros aliquet dictum.
